Procurement Information
Interested vendors must register in the US System for Award Management (SAM) in order to be eligible for contracts exceeding £25K. Opportunities for smaller acquisitions totaling roughly £25Million annually through our Government Purchase Card (GPC) Program do not require SAM registration. Administrators will provide registration and program guidance.

Objectives in attending the event
Our primary objective is to increase our network of qualified suppliers to provide direct contracts between U.K. vendors and US Visiting Forces at 12 RAF Locations. Our portfolio includes a diverse portfolio of construction, services, and commercial goods in excess £120M annually.

- Legal
- Mechanical
- Plant & Plant Hire
- Quantity Surveying & Cost Consultancy
- Recruitment
- Structural
- Training Services
- Translation Services
- Vehicle Purchase & Leasing

Procurement Information

Braintree District Council spends a significant sum each year with the private sector. This represents some fundamental opportunities for a wide range of businesses in and around the District. If you are a business interested in supplying goods and services to Braintree District Council, then we advise you to register as a supplier on the Contracts Finder website (www.gov.uk/contracts-finder). This site will enable your organisation to view the opportunities for Braintree DC as well as all other public sector bodies across the UK. If you create an account with Contracts Finder, you can receive email updates and save your searches. If you do not want to create an account, you can still search and apply for contracts.
To view all current contracts and in line with the coalition government/'s transparency agenda, the Council publishes its contracts register; (http://contracts.eelga.gov.uk/) this database shows our current contracts and also shows the potential future opportunities for a wide range of businesses. The contracts register is updated on a regular basis.

Objectives in attending the event

To advise suppliers of how we advertise opportunities, the general types of opportunities we have, how we evaluate and what rules and regulations we must adhere to.

COSTAIN

Website: www.costain.com

Buyer(s) Present: Aviation Director

Business Description: Costain helps to improve lives with smart infrastructure solutions across the UK's energy, water and transportation infrastructures. We help to safeguard the security, increase the capacity, improve customer service and drive efficiency in our clients' infrastructure programmes. - Transport & Logistics
- Utilities
- Vehicle Purchase & Leasing
- Waste Disposal
- Waste Management

Procurement Information

We have a central Procurement team who manage the supply chain.

Objectives in attending the event

Meet with new and innovative suppliers.

JERRAM FALKUS

Website: www.jerramfalkus.com

Buyer(s) Present: Buyer & Strategic Procurement Manager

Business Description: The spectrum of work carried out by us embraces both new build and refurbishment of commercial, industrial, residential, educational, healthcare, and other public-sector buildings. Projects are carried out in both occupied and unoccupied environments. Today the Group is a soundly based multi-faceted organisation able collectively to offer a sound and well organised construction ability to any form of building. Apart from carrying out projects using traditional contracting arrangements, the company can provide a design-build service for all types of building works. Full 'turnkey' projects can be undertaken when relevant to a busy Client's needs.

Procurement Requirements:

- Architectural Metalwork
- Bathroom / Kitchen Fittings
- Bricklayers
- Building Materials - Heavy side
- Building Materials - Light side
- Carpentry / Joinery
- Ceilings (Suspended)
- Ceramics
- Chemical Engineering

- Structural Components
- Structural Steelwork
- Surface Coatings / Paints

- Fitting-Out Works
- Fixtures, Furnishings & Equipment
- Flooring (Industrial & Commercial)
- Glaziers
- Groundwork & Drainage
- Timber
- Water Coolers
- Welding
- Windows (UPVC, Metal, Timber)

Procurement Information

Prior to signing any member up to our formal supply chain for any project, we will hold pre-selection interviews. The purpose of these will be to ascertain that they really have made a commitment to partnering with us and can demonstrate their ability to comply with qualitative issues such as resourcing, health and safety, training and equal opportunities. At this point, we generally take up references and visit some of their recent projects. We would invite the Client Team to join us in interviewing prospective supply chain members and visiting their sites, as we wish to encourage inclusion and involvement. It will be the responsibility of our Commercial Manager to place individual subcontract orders. Our Materials Buyer will place supplier/materials orders. Our Plant Manager will place plant orders.

Objectives in attending the event

Our aim is essentially two-fold and that is to acquire a greater number of suppliers as well as establish client contacts which could in turn lead to tender opportunities.

KIER CONSTRUCTION

Website: www.kier-constructioneastern.co.uk

Buyer(s) Present: Buyer & Strategic Procurement Manager

EXHIBITORS

Anderson Acoustics Ltd
www.andersonacoustics.co.uk

The company was formed in Brighton in 2006 and has become a successful and respected consultancy with a reputation for delivering a reliable, honest, friendly and professional service. With over twenty great employees we are one of the largest specialist acoustics consultancy practices in the UK, meaning we can deliver on the most challenging projects.

We provide acoustics and vibration management consultancy and related services across the airports, construction, environmental, schools and building acoustics sectors. We have been involved in small to very large-scale projects, ranging in value from under fifty thousand to billions of pounds, with team experience delivering UK and international projects.

British Aviation Group
www.britishaviationgroup.co.uk

The British Aviation Group is the leading representative body for British companies involved in aviation and airport development and operations. We provide world class expertise to meet the challenges of the global aviation industry, creating the airports of the future through the power of our network.

Cambridge Software Engineering
www.cambseng.com

Cambridge Software Engineering(CSE) are a project and skills-based software development company. We provide bespoke Web, Mobile and Windows application development, specialising in MVC and MVVM techniques. We focus on using current, industry standard development technologies and toolsets to provide our customers with robust, feature rich and maintainable application solutions.

From a development perspective we are database agnostic and our flexible approach enables us to adapt to existing infrastructure constraints.

British Irish Airports Expo 2020
9-10 June, ExCeL London
www.airports-expo.com

The British-Irish Airports EXPO helps regional airport stakeholders continue to run safe, secure and sustainable operations.

Through our free-to-attend conference content, we provide expert guidance around today's operational issues, as well as a forum to discuss and contemplate scenarios affecting airports in the future. Delivering 2500 attendees for 150 exhibitors, we also provide a platform for both parties to meet and do business together.

Stansted Airport Chamber of Commerce
www.thesacc.com

The Stansted Airport Chamber of Commerce (SACC) serves the following purposes: Promotion of trade within the region, bringing businesses together. Providing opportunities for all types of business. Collection of information and statistics which may be of use to their members.

Stansted Airport Employment Academy
www.stanstedairportacademy.com

Stansted Airport Academy is under London Stansted Airport's (MAG) direct management and is delivered in partnership with Harlow College. We offer a comprehensive employability service and our staff are here to help to develop the skills and confidence of those seeking to work at the airport. Our pre-employment training programmes provide jobs seekers with an opportunity to effectively learn and gain necessary skills to allow them to secure employment with an on-site employer.

Invest Essex
www.investessex.co.uk

Invest ESSEX is an investment promotion agency (IPA) and business support provider, promoting the opportunity of Essex as a prime UK business location to international and UK companies. Invest ESSEX guides and supports businesses through every stage of business relocation, expansion or scale-up.

The Invest ESSEX team have worked in key industry sectors and includes some of the most experienced practitioners in their fields; all of whom bring significant networks of contacts. The team are unrivalled facilitators and connectors and are easily able to access influencers and decision makers for their clients.
Invest ESSEX also provides a full impartial assessment of finance needs by their SME funding specialists helping review all options to find tailor-made solutions for businesses. Invest ESSEX offers business funding to support businesses in Essex, with access to specialist advice and up to 12 hours of fully funded consultancy. The dedicated 'aftercare' service also continues to support growing businesses.
As well as supporting SMEs, Invest ESSEX works with leading international companies serving industry sectors especially in Financial & Professional Services, Multi-modal Logistics, Manufacturing & Technology, Life Sciences & Healthtech, Energy and Construction and Food and Drink.
Through a unique combination of location benefits, Essex offers an unrivalled opportunity for businesses seeking growth in the UK, European and global markets. Essex delivers unbeaten connectivity and combines value-adding benefits with significant cost advantages versus London, Cambridge, the UK's major cities and other international and European competitor locations.

Invest ESSEX is a specialist business support agency, helping companies to relocate or expand in Essex. It is delivered by the Let's Do Business Group and is jointly funded by Essex County Council (ECC) and the European Union's European Regional Development Fund (ERDF).

Medigold Health
www.medigold-health.com

Medigold Health is one of the UK's most respected and established providers of corporate healthcare services. Still majority family owned, we have been involved in the business of helping employers to keep their people in work, safe and well for two decades.
Unlike many of our competitors, we are a clinically led organisation from the top down. Our Executive Chairman and Founder, Dr Mike Goldsmith, established the Medigold Health brand and service delivery model on the uncompromising principles of quality and integrity.

As we continue on our exciting journey, we aim to blend the core services for which we have become synonymous, such as robust sickness absence referrals and state of the art health surveillance provision, with new and innovative products like Day One Absence reporting and targeted mental health support.

We are very different to many of our competitors; We have scale, but we have a human face; We have clinical heritage, but we have pioneered the most advanced modern technology; And We have our own-employed clinical resources, but still have a fully national presence.
We are redefining corporate healthcare in the UK and we are dedicated to "Keeping people in work, safe and well".

South East Local Enterprise Partnership
www.southeastlep.com

The South East Local Enterprise Partnership (SELEP) is one of 38 LEPs, the biggest LEP outside London, established to “provide the clear vision and strategic leadership to drive sustainable private sector-led growth and job creation in their area”

T6 Transforming Surfaces™

www.t6int.com
